Heart of Europe – Your access to the Bavarian economy

The Bavarian Association of Chambers of Commerce and Industry (CCIs)
Welcome to Bavaria, welcome to the economic powerhouse of Germany, welcome to the Bavarian Chambers of Commerce and Industry!

Bavaria is known for its hospitality, good food, traditional drinks and beautiful landscapes. Every year, Bavaria’s tourist sector sets new records and the state welcomes millions of visitors annually from all over the world.

The Free State of Bavaria is an industrial centre of excellence with renowned industries and brands – home to tech entrepreneurs as well as traditional family-led businesses which go back generations. It is an inspiring combination of tradition and a centre of innovation in the 21st century. Bavarian companies regularly attain new export records and have integrated well into international supply chains.

The Bavarian Association of Chambers of Commerce and Industry consists of the nine Bavarian Chambers of Commerce and Industry (CCIs). It is the largest industrial association in the Free State of Bavaria, founded in 1909. Currently, it represents about 980,000 member companies of different sectors and sizes.

The Chambers of Commerce and Industry support you in discovering Bavaria’s diversity.

Let’s go...
Bavaria’s unique selling points

Economy
Within Germany, Bavaria has:
- the second highest gross domestic product of 594 billion euros (2017).
- the highest purchasing power per capita.
- the lowest unemployment rate (currently at 3.2%).
- a disproportionately high share of foreign direct investment.
- recorded the highest number of settlements of foreign technology companies in recent years.
- with Nuremberg and Munich, internationally important exhibition centres with leading international trade fairs.
- Germany’s second largest airport.
- 8 out of 30 companies listed on the German Stock Index (DAX) headquartered.

→ Bavaria is Germany’s economic powerhouse.

Science and Research
- Bavaria is a centre for science. It has 33 public universities and colleges, including two of Germany’s eleven Excellence Universities. There are also numerous private universities.
- Bavaria is a research location. 13 Institutes of the Max Planck Society and its headquarters, the German Aerospace Centre, the headquarters of the Fraunhofer Society, 33 Fraunhofer Institutes, 7 Leibniz Institutes and 2 Helmholtz Research Centres are located in the Free State of Bavaria.

Quality of life
International studies identify a very high quality of life for the Bavarian metropolises of Augsburg, Munich and Nuremberg when compared globally. The attractive surroundings of the cities and also the regional centres, nature and sights further increase the quality of life. In addition, Bavaria stands out
- for its low crime rate.
- for excellent international air, rail and road connections.
- as the top tourist destination in Germany.
- as the location of 7 UNESCO World Heritage Sites.

What Bavaria is known for:

Consumer goods
Everyone uses it: the hexagonal pencil. Did you know that it was developed in Bavaria? Since 1726, this sector has developed into an industry around Nuremberg, which still lives on in well-known family businesses. In addition, there is a large number of renowned consumer goods manufacturers in Bavaria, from stationery for the Oscar Awards ceremony to down-filled pillows for royal heads.

Car manufacturers and suppliers
With BMW and Audi, two of the five German car brands have their headquarters in Bavaria. Additionally, major suppliers like Schaeffler, Brose, Dräxlmaier, Leoni, Webasto, Knorr-Bremse among others have their headquarters here.

Medical care – medical technology
The word that the medical care in Bavaria is regarded as one of the best in the world has spread. Therefore, many public and private hospitals perform treatments for patients from abroad. Medical technology “Made in Bavaria” stands for internationally sought-after products.

Sportswear – sport
Sport is a part of culture and an economic factor in Bavaria. Many Bundesliga clubs can be found in Bavaria – including FC Bayern Munich, as a national and international record champion. Germany’s most famous sports brands, Adidas and Puma, come from Bavaria.

Mechanical engineering
Mechanical engineering is of outstanding importance to Bavaria. Many, in particular medium-sized companies in this sector are active in the Free State. The industry is an important driver for innovation and research.

Electrical engineering
The electrical industry is one of the most important sectors in Bavaria when it comes to jobs, exports or innovations. Through high investments in research and development, Bavaria is leading in many areas of this industry.

Sport
Bavaria – including FC Bayern Munich, Germany’s most successful football club, is a part of culture and an economic factor in Bavaria. Many Bundesliga clubs can be found in Bavaria – including FC Bayern Munich.

Specialities
Bavaria is known for its culinary specialities (“Schmankerl”). From Bavarian beer and Franconian wine, to delicious milk and cheese products, there are numerous originals. Discover Bavaria’s culinary art!

Our mission

As Chambers of Commerce and Industry...
- we are service providers for all sectors and company types.
- we take on sovereign tasks for the economy.
- we represent the interests of the economy in relation to politics.
- we facilitate international business relations.

What distinguishes the Chambers of Commerce and Industry from lobby associations:
The Chambers of Commerce and Industry...
- are the largest business organisation in Germany.
- are characterised by voluntary commitment of entrepreneurs.
- follow democratic principles: one company, one vote.
- represent the interest of the economy at large, in a balancing way, to promote growth and stability at regional level.
- is formed by legal members. All companies are required to be part of their regional Chamber of Commerce and Industry.

The Bavarian Chambers of Commerce and Industry
- The umbrella organisation of the Bavarian Chambers of Commerce and Industry (BIHK) is the largest entrepreneur organisation in Bavaria.
- There are 9 independent Chambers of Commerce and Industry distributed throughout Bavaria.
- Founded in 1909.
- The 9 Chambers of Commerce and Industry in Bavaria represent around 1 million companies, almost one third of all companies associated with Chambers of Commerce and Industry in Germany.
- The Bavarian Chambers of Industry and Commerce are your access to Bavaria’s economy!

What we can do for you

Want to know more? We offer the following information and services:

**Business partner search to support internationalisation**
- The CCI’s Bavarian company database with more than 200,000 registered companies. A quick and easy search will help you find the contacts you need for your business.
  - [firmen-in-bayern.de](http://firmen-in-bayern.de)
- The Enterprise Europe Network (EEN) in Bavaria provides access to corporate collaboration through its databases and networks. The participating Bavarian Chambers of Commerce and Industry are happy to assist you with your search.
  - [een-bayern.de](http://een-bayern.de)

**Support with founding a company**
- Do you need a permit or information about requirements?
- Which legal form suits your project?
- Where do you have to register your company?
- What support can you get?
- Our experts will be glad to help you!
  - [bihk.de](http://bihk.de)

**Customs information for import**
- All goods that reach Bavaria from a non-EU state must pass through customs. The experts from the CCIs will tell you which aspects need to be clarified, e.g.
  - What are the import duties?
  - Which import documents are needed?
  - Do you need special permits?
  - [www.zoll.de/EN](http://www.zoll.de/EN)

**Location information**
- Quickly find the location in Bavaria that suits you. Our experts will advise you...
  - where you can find available commercial space.
  - where commercial real estate is offered.
  - what the economic structure looks like on the ground.
  - [standortportal.bayern](http://standortportal.bayern)

**Vocational training**
- Bavaria is known for its highly-qualified specialists. The “dual vocational training” is controlled and coordinated by the CCIs. We can provide you with expert support:
  - Do you have any questions about dual education?
  - Would you like to have a foreign vocational qualification recognised in Bavaria/Germany?
  - [bihk-fosa.de](http://bihk-fosa.de)
  - Would you like to attend one of our training programmes?
  - No problem, just contact us! We will explain everything you need to know about education and training.

**Contact**
- We look forward to receiving your enquiry

Chamber of Commerce and Industry – well connected on Bavarian, German, European and international levels

The Association of German Chambers of Commerce and Industry (DIHK)
As the umbrella organisation of all Chambers of Commerce and Industry in Germany, the DIHK represents its interests towards German politics and European institutions.

EUROCHAMBRES
The umbrella organisation of the European Chambers of Commerce also represents the interests of the Bavarian Chambers of Commerce and Industry towards European institutions.

AHK
The bilateral German Chambers of Commerce Abroad promote foreign trade relations with the German economy.
- 140 locations, 92 countries
- 45,000 member companies worldwide, 1,900 employees
- 500,000 enquiries every year

EEN – Enterprise Europe Network
The EEN is the largest advisory network in the European Union for small and medium-sized enterprises and aims to support them in business collaborations, technology transfers and strategic partnerships.

Consular corps in Bavaria
With representatives from around 120 countries, Bavaria has the largest consular corps in Germany.

German embassies

GIZ
As an internationally operating organisation of the official German development cooperation, the GIZ is a partner for the Chambers of Commerce and Industry for successful interaction of development policy and foreign trade.

GTAI
Germany Trade & Invest supports with current and detailed market analyses, information, economic data and country reports for all countries worldwide.

HWK
The Chamber of Skilled Trade (HWK) in Bavaria is the partner organisation of the Chambers of Commerce and Industry and contact organisation for skilled trade businesses.

BHI
Bayern Handwerk International is the contact point for Bavarian skilled trade companies offering their products and services abroad.

Cluster
The 17 technology clusters in Bavaria serve to promote key technologies in the Bavarian economy.

Start-up
BayStartUP specifically supports innovative founders in overcoming typical challenges of starting a business.

Ministry of Economic Affairs
On a political level, the Bavarian Ministry of Economic Affairs, Regional Development and Energy ensures that Bavaria remains strong and competitive as an economic location.

Bayern International
As an export promotion agency for Bavaria, Bayern International is a close partner of the Bavarian Chambers of Commerce and Industry in the common goal of supporting Bavaria’s companies in international markets.
Bavaria as a market of the future – with "laptops" and “lederhosen”

This slogan combines tradition and progress in Bavaria. Bavaria’s Chambers of Commerce and Industry are committed to innovative topics in order to ensure the competitiveness and future viability of their members.

Digitalisation

The future concept, "Bavaria Digital", promotes digitalisation in the Free State of Bavaria and makes our region the pioneer of digital change in Germany. The CCIs are partners of the economy in order to work together to overcome challenges.

Infrastructure & connectivity

In terms of area size, Bavaria is the largest state in Germany. An excellent transport network guarantees Bavaria’s prosperity. According to forecasts, traffic in Bavaria will further increase. The CCIs are committed to ensuring that Bavaria’s infrastructure will remain competitive.

E-mobility

E-mobility is one of the biggest trends of our time – especially in Bavaria. By 2020, one million e-vehicles will be on German roads. Due to its focus on the automotive sector, Bavaria is considered a pioneer for e-mobility. The CCIs support the use of e-vehicles through information and promotion.

Energy transition

The share of renewable energies started to increase long before the "energy transition". Bavaria is a leader in hydropower and solar energy in Germany. Innovative solutions from Bavaria help to attain global climate goals. The CCIs work at the interface between politics and business to make this change sustainable.

Biotechnology & chemical industry

There are over 350 biotech companies in Bavaria. Therefore, the Free State is an important hub in Europe for this industry. The potential for more life science actors is not exhausted. The chemical industry is a key pillar in the Bavarian industrial mix. The sector covers nearly the entire value creation chain. The so-called "Chemical Triangle" in Upper Bavaria has a particularly high concentration of chemical companies. The CCIs support the Bavarian biotech and chemical industry at the respective locations.

Industry 4.0

Bavarian companies perform brilliantly in times of economic change. Thanks to new technologies, the "Factory of the Future" is already reality. Bavaria is an ideal application area for "smart" and connected solutions thanks to its industrial value creation. The CCIs support this.

Start-ups

Bavaria is known for its highly developed start-up scene. In order to have an ideal basis for founders to create innovative ideas, Bavaria has created a close network in order to give start-ups the support they need. The CCIs provide advice in the form of coaching, networking or workshops for young companies. For the implementation of new ideas, there are special workspaces and incubators in many areas in Bavaria.

Health economy

Health and Bavaria go hand in hand. With a workforce of around 900,000 people and increasing value creation of over 50 billion a year, Bavaria is right at the top in Germany when it comes to health services. Foreign patients can benefit from this excellent infrastructure, which is clearly shown by the annual large number of medical tourists. The CCIs help to ensure that Bavaria remains competitive in doing so.
What else you should know...

20,635
visitors to the head of the Bavaria statue

"Bavaria" is the name given to a monumental 19th-century statue in Munich. It is the female personification of the Bavarian homeland and by extension its strength and glory. Similar to the Statue of Liberty in New York, it is possible to climb inside the statue up to its head.

624
annual production 23,618,917 hl

44 %
of German breweries are located in Bavaria

If you order beer at an inn, you should order at least "eine Halbe" ("a half") (0.5 l). If you cannot stomach that, better keep your fingers away from the Bavarian national drink.

Bavaria likes it when foreigners wear traditional Bavarian costume.

The legendary King Ludwig, who built numerous Bavarian palaces, is considered inviolable.

To say goodbye, one says "Auf Wiedersehen". In Bavaria, in more casual circumstances, you say "Servus" – which can even be used as welcome formula.

35 m
Height of the Maypole at the Munich Viktualienmarkt

Maypoles are set up in many parts of Bavaria on the first of May – a tradition that dates back to the 16th century. A maypole represents the whole community of a settlement and thus also represents the local craft sectors. The tallest maypoles reach a height of more than 50 metres.

7-9 cm
Length of an original Nuremberg grilled sausage, "Rostbratwurst"

White sausage is always eaten with sweet (dark) mustard and never later than twelve o’clock midday. Grilled sausages, or "rostbratwurst", are eaten with medium sharp (light) mustard or with horseradish (in Bavarian, "Kren").
